

## Wilson Street

(from Beach Street to Revere Beach Parkway)

Wilson Street is a fairly heavily travel roadway since it offers direct access to Revere Beach Parkway thus allowing drivers the option to avoid Broadway. The homes and properties along the street are well maintained and show pride in ownership.

We have broken our inspection of Wilson Street into two sections, the first being between Beach Street and Taft Street and the second being from Taft Street to the Revere Beach Parkway.

Beach Street to Taft street:

Bituminous sidewalks with an approximate 2.5 inch grass stripe between the curb and sidewalk exists running the length of this section of the street.. There is granite curbing in this area of roadway. There is a tree located on the sidewalk whose roots have made the area impassable. The road surface has alligator cracking running the length of this section of Wilson Street along with numerous pothole patches.

Taft to the Revere Beach Parkway

The roadway from Taft to the Revere Beach Parkway has alligator cracking running the length of the street and numerous pothole patches. are evident along with a gas trench running the length of this section of the street. There are bituminous sidewalks in place with concrete curbing

Our suggestions for Wilson Street between Beach Street and Taft Street are as follows;

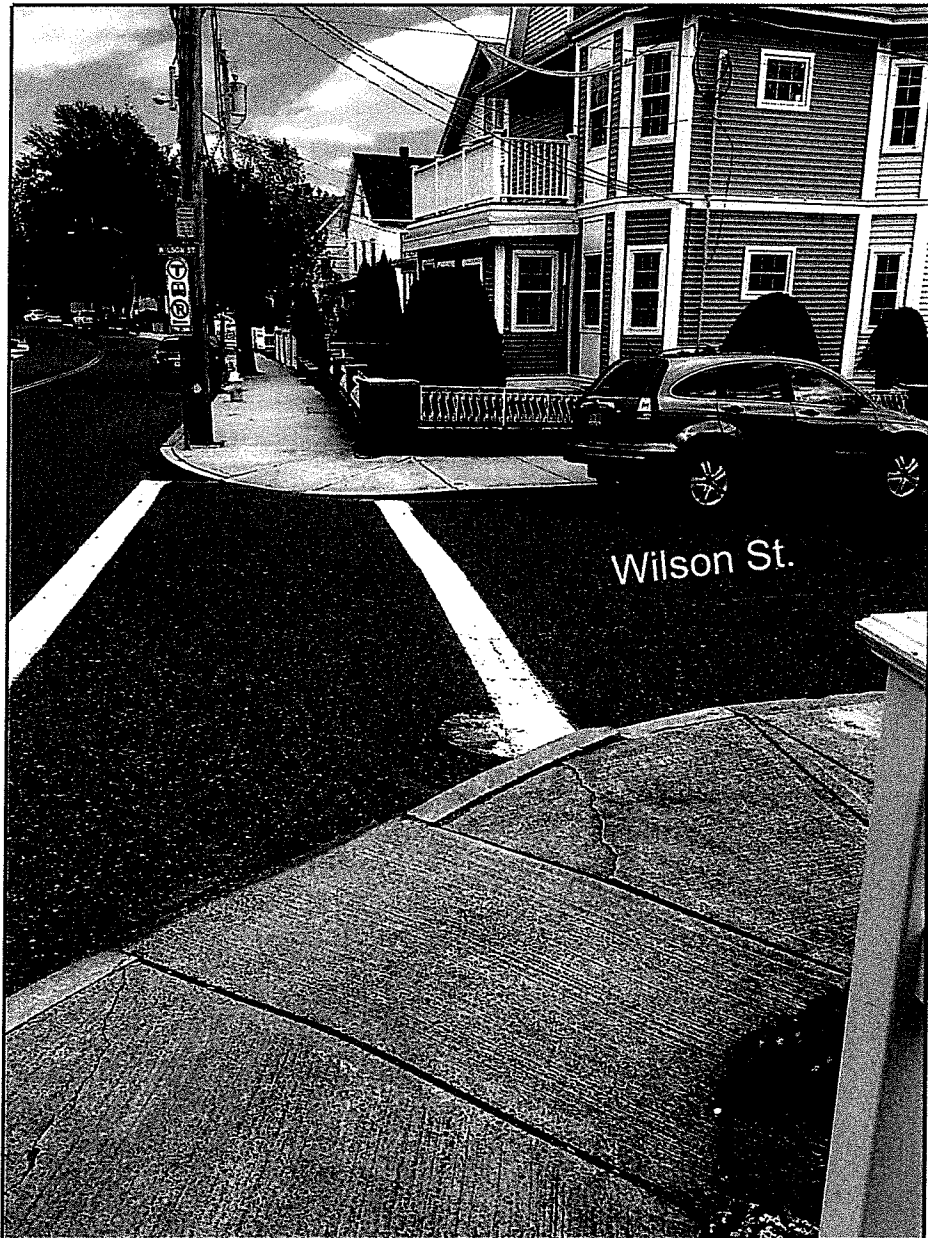

- Remove the bituminous sidewalk and replace with concrete sidewalks
- Keep the grass stripe between the curb and sidewalk
- Re-set the granite curbing
- Cut down the tree and replace when doing additional tree plantings
- Mill and put down a new top coat to the roadway

Between Taft Street and the Parkway;

- Remove the bituminous sidewalks and replace with concrete sidewalks
- Replace concrete curbing with new granite curbing
- Mill and apply new top coat to roadway
